

Nikki Campbell

Applications Solution Consultant, Senior Living | Yardi Systems, Inc.

Nikki Campbell is an Applications Solution Consultant for the Senior Living Sales team and is a product expert on the Yardi EHR and eMAR products for Senior Living, Skilled Nursing, and Home Health. She has been with Yardi for four years, originally starting as a member of the implementation team before moving to her current position with sales six months ago.

Prior to joining Yardi, Nikki worked for six years as an implementation consultant and corporate trainer for two large national hospital systems. She also worked as a clinical liaison connecting community clinics and providers to their local health system through training and support of various software applications.
