DAY 1

10:30 AM ET
Conference opens

11:00 AM - 11:30 AM ET
**Keynote: The business value of identity management**
Speaker(s): Bob West, Managing Partner, West Strategy Group

As workforces have dispersed, organizations have had to adapt to address the business and operations models quickly. The question that came to mind for stakeholders was, “Do we have the right design for this?” For CEOs, focusing on the cash position is vital. How long will it last? Is the business model relevant? Where does the business need to pivot? Where are we in terms of digital transformation? There’s a material difference between managing legacy applications and operating in the cloud for the information security function, and it has a significant impact on how much cash flow lasts. It also affects how a security function can stand up an identity and access management model that can operate in a new environment. Listen in on this fireside chat between SC Media Editor in Chief, Jill Aitoro, and Bob West, managing partner at West Strategy Group, as they dive deep on the business value of identity management and how you can align your IAM strategy with organizational goals.

11:30 AM – 11:45 AM ET
Visit exhibit hall

11:45 AM - 12:15 PM ET
**Webcast: Reducing the Risk of Overprivileged Users Going Beyond Zero Trust**
Speaker(s): Joseph Carson, Cyber Security Professional, Thycotic

12:15 PM - 12:25 PM ET
Visit exhibit hall

12:25 PM – 12:55 PM ET
Speaker(s): Tim Norris, RSA Solutions Strategist
         Murtaza Hafizji, Sr. Manager, RSA Product Marketing
Presentation by: RSA

12:55 PM – 1:05 PM ET
Visit exhibit hall

1:05 PM - 1:35 PM ET
**Webcast: Why our Security problems are getting worse...**
Speaker(s): Jeff Schwartz, Vice President of North American Engineering, Check Point
Presentation by: Check Point Software Technologies

1:35 PM – 1:45 PM ET
Visit exhibit hall

1:45 PM – 2:15 PM ET
**Presentation by:** VMWare

2:15 PM – 2:25 PM ET
Visit exhibit hall

2:25 PM – 2:55 PM ET
**Webcast: Understand and Combat Credential Surfing Attacks**
Speaker(s): Jamie Hughes, Lead Solutions Engineer, Auth0
Presentation by: Auth0

2:55 PM - 3:05 PM ET
Visit exhibit hall

3:05 PM – 3:35 PM ET
**Webcast: Don't Sacrifice Security for Convenience. You Can Have Your Cake and Eat It Too**
Speaker(s): Bryan Christ, Senior Sales Engineer, Hitachi ID
Presentation by: Hitachi ID

**DAY 2**

10:30 AM ET
Conference opens

11:00 AM - 11:30 AM ET
**Keynote: Taking steps towards a password less future**
Speaker(s): Jay Leslie, CIO, Cambridge Housing Authority

*Passwords that are easy to remember are simple to guess. A password strong enough to make cracking impractical will be written down and re-used across multiple systems, to be exposed through a complex hacking campaign, a phishing email, shoulder-surfing with a camera phone, or simply finding the right sticky note on the side of a screen.*

*The password has been a cornerstone of information security for millennia, but it's showing its age. While pundits have for years claimed the password's end was nigh, its demise seems perpetually five years hence. But we're making progress. For evidence, look no further than the miniature*
Many of us are accustomed to unlocking our smartphones with a gesture, then logging on to our banking apps with a tap of the fingerprint reader. This foreshadows our passwordless future and it’s coming soon to a corporate laptop near you.

Join SC Media Executive Editor Teri Robinson as she sits with Jason Leslie, Chief Information Officer of Cambridge Housing Authority to discuss why we’re close than ever to a password-less future, and how you can take steps to get your organization there faster.

11:30 AM – 11:45 PM ET
Visit exhibit hall

11:45 PM - 12:15 PM ET
**Webcast: Deconstructing the Twitter Attack: It’s Time to Prioritize Privileged Access Management**
Speaker(s): Matt Tarr, Principal Solutions Engineer
Presentation by: CyberArk

12:15 PM - 12:25 PM ET
Visit exhibit hall

12:25 PM – 12:55 PM ET
**Webcast: 3 Tips to Bridge Workforce Security and Productivity**
Speaker(s): Frederico Hakamine, Group Product Marketing Manager, Okta
Presentation by: Okta

12:55 PM - 1:05 PM ET
Visit exhibit hall

1:05 PM – 1:35 PM ET
**Webcast: Re-assessing Zero Trust models for modernizing IAM environments**
Speaker(s): Asaf Lerner. Director, Business Development & Channel Acceleration AMER at Thales
Presentation by: Thales

1:35 PM – 1:45 PM ET
Visit exhibit hall

1:45 PM – 2:15 PM ET
**Presentation by:** Rapid7
2:15 PM - 2:25 PM ET
Visit exhibit hall

2:25 PM – 2:55 PM ET
**Webcast: Making IAM easier through automation**
Speaker(s): Kunal Agrawal Senior Manager, Advisory & Consulting Services, Galvanize
Presentation by: Galvanize

2:55 PM - 3:05 PM ET
Visit exhibit hall
